## **UNIQUE ARTISTIC COLLABORATION TO RELEASE INNOVATIVE ANTHOLOGY PROJECT**

DECEMBER 7, 2011 (AVENEL, NEW JERSEY) – The Very Us Artists (a medley of musicians, songwriters, composers, and visual artists) has partnered with Blindsided Books (the publishing imprint from Sidedown, which focuses on independent authors, multi-media design and diverse, alternative literature) to produce a 19-story anthology of dark science fiction paired with a 19-track album of original soundtrack songs and instrumentals, created collaboratively by a veritable shadow gallery of speculative fiction authors and musicians, including Ed Greenwood and many other top selling authors and musicians.

Being released February 2012, *Foreshadows: The Ghosts of Zero* contains contributions from both up-and-coming and veteran authors of fantasy/science fiction and musicians, while well-known artists Michael Komarck and Talon Dunning provide stunning glimpses into these stories through a new painting and 19 story/track-specific illustrations, respectively.

*Foreshadows: The Ghosts of Zero* is an innovative project that neither traditional publishing nor standard music distribution avenues are accustomed to and will be distributed and sold online through the newly launched website, [www.foreshadows.net](http://www.foreshadows.net). Additional information about the project, including a video, podcasts, music clips, story excerpts, audio interviews with contributors, and more is available there.

Requests for interviews, music samples or more information can be made by contacting Kate Baldwin at 917-597-3974 or by visiting [www.foreshadows.net/press](http://www.foreshadows.net/press)
